

I have supported KLOVE for many years and have enjoyed the music daily in my car and at work. This radio station not only provides great music but an awesome ministry that has helped so many people along the way who then give their testimonies of how their lives were helped and changed by this station. It would be a mistake to change how this station goes out and who has the ability to hear it.

Please reconsider changing the service to LPFM. My understanding is this would take this station away from many people who have loved and supported it. Thank you,  
Debra Heydt
